CURRICULUM VITAE of A. SKOPENKOV

Born 15.10.1972. Graduated Kolmogorov College in 1989. Winner of International Mathematical Olympiade in 1989 (2nd prize). Graduated Moscow State University in 1994. Post-graduate student at Moscow State University 1994–1997. Ph. D. (Russian candidate degree) 1997, Moscow State University. Dr. Habil. (Russian doctor degree) 2003, Moscow State University.

Faculty of Mechanics and Mathematics of Moscow State University award for students' research papers 1994. Moscow Mathematical Society award for young mathematicians 1997. Moscow State University award for young scientists 1998. London Mathematical Society grant 'Invitation of young Russian mathematicians' 2002. Russian Academy of Science medal for young scientists 2003. INTAS Grant 'Experienced post-doctoral Fellowship' 2003-2004. Moscow State University Stipendium 2003-2004.

In 1990-2003 teaching at Kolmogorov College of Moscow State University (since 2001 associate professor). Since 1999 teaching at the Independent University of Moscow (since 2003 full professor). Since 2003 teaching at Faculty of Mechanics and Mathematics of Moscow State University (associate professor). Since 1991 jury member of Russian Mathematical Olympiade of high-school students.

A list of publications by A. B. Skopenkov

Research and survey papers.

[Sko95] A.Skopenkov, *A description of continua basically embeddable in* $\mathbb{R}^2$, Topol. Appl. **65** (1995), 29–48.

[Sko97] A. B. Skopenkov, *On the deleted product criterion for embeddability of manifolds in* $\mathbb{R}^m$, Comment. Math. Helv. **72** (1997), 543–555.

[Sko98] A. B. Skopenkov, *On the deleted product criterion for embeddability in* $\mathbb{R}^m$, Proc. Amer. Math. Soc. **126:8** (1998), 2467–2476.

[Sko00] A. Skopenkov, *On the generalized Massey–Rolfsen invariant for link maps*, Fund. Math. **165** (2000), 1–15.

[Sko02] A. Skopenkov, *On the Haefliger-Hirsch-Wu invariants for embeddings and immersions*, Comment. Math. Helv. **77** (2002), 78–124.

[Sko03] A. Skopenkov, *Embedding and knotting of higher-dimensional manifolds in Euclidean spaces*, London Math. Soc. Lect. Notes, submitted.

[Sko] A. Skopenkov, *The Whitehead link, the Hudson-Habegger invariant and classification of embeddings* $S^1 \times S^3 \to \mathbb{R}^7$, submitted (2001).

[RSS96] D. Repovš, A. B. Skopenkov and E. V. Ščepin, C^1*-homogeneous compacta in* $\mathbb{R}^n$ *are* C^1*-submanifolds of* $\mathbb{R}^n$, Proc. Amer. Math. Soc. **124:4** (1996), 1219–1226.

[SSS98] J. Segal, A. Skopenkov and S. Spież, *Embeddings of polyhedra in* $\mathbb{R}^m$ *and the deleted product obstruction*, Topol. Appl. **85** (1998), 225–234.

[ReSk99] D. Repovs and A. Skopenkov, *New results on embeddings of polyhedra and manifolds into Euclidean spaces*, Uspekhi Mat. Nauk **54:6** (1999), 61–109 (in Russian); *English transl.*, Russ. Math. Surv., 1149–1196.

[RSS93] D. Repovš, A. B. Skopenkov and E. V. Ščepin, *A characterization of* C^1*-homogeneous subsets of the plane*, Boll. Unione Mat. Ital. **7-A** (1993), 437–444.

Typeset by $\mathcal{A}_{\mathcal{M}}\mathcal{S}$-TEX

[Sko94] A. Skopenkov, *A geometric proof of the Neuwirth theorem on thickenings of 2-polyhedra*, Mat. Zametki **56:2** (1994), 94–98 (in Russsian); English transl.: Math. Notes, 58:5 (1995), 1244–1247.

[RSS95] D. Repovš, A. B. Skopenkov and E. V. Ščepin, *On uncountable collections of continua and their span*, Colloq. Math. **69:2** (1995), 289–296.

[RSS95'] D. Repovš, A. B. Skopenkov and E. V. Ščepin, *On embeddability of $X \times I$ into Euclidean space*, Houston J. Math **21** (1995), 199–204.

[ReSk95] D. Repovš and A. B. Skopenkov, *On homogeneous compacta in Euclidean space and the classical Hilbert–Smith conjecture*, in: Proc. of the Second Asian Math. Conf. (ed. S.Tangmanee, E.Schulz) (1995), 222–226.

[ReSk96] D. Repovš and A. B. Skopenkov, *Embeddability and isotopy of polyhedra in Euclidean spaces*, Trudy Math. Inst. Ross. Akad. Nauk **212** (1996); Proc. of the Steklov Inst. Math. **212** (1996), 173–188.

[RSS97] D. Repovš, A. B. Skopenkov and E. V. Ščepin, *Group actions on manifolds and smooth ambient homogeneity*, Jour. of Math. Sci. (New York) **83:4** (1997), 546–549.

[CRS98] A. Cavicchioli, D. Repovš and A. B. Skopenkov, *Open problems on graphs, arising from geometric topology*, Topol. Appl. **84** (1998), 207–226.

[ReSk98] D. Repovš and A. B. Skopenkov, *A deleted product criterion for approximability of a map by embeddings*, Topol. Appl. **87** (1998), 1–19.

[ReSk99'] D. Repovš and A. B. Skopenkov, *Obstructions for Seifert fibrations and classification of Hamiltonian systems (in Russian)*, Uspehi Mat. Nauk **54:3** (1999); English transl.:, Russ. Math. Surv. **54:3** (1999).

[ReSk99"] D. Repovš and A. B. Skopenkov, *Borromean rings and embedding obstructions (in Russian)*, Trudy Math. Inst. Ross. Akad. Nauk **225** (1999), 331–338; English transl.:, Proc. of the Steklov Inst. Math. **225** (1999), 314–321.

[BRS99] D. Repovš, N. Brodsky and A. B. Skopenkov, *A classification of 3-thickenings of 2-polyhedra*, Topol. Appl. **94** (1999), 307–314.

[CRS00] A. Cavicchioli, D. Repovš and A. B. Skopenkov, *An extension of the Bolsinov–Fomenko theorem on classification of Hamiltonian systems*, Rocky Mount. J. Math. **30:2** (2000), 447–476.

[ReSk00] D. Repovš and A. Skopenkov, *Cell-like resolutions of polyhedra by special ones*, Colloq. Math. **86:2** (2000), 231–237.

[ReSk01] D. Repovš and A. Skopenkov, *On contractible n-dimensional compacta, non-embeddable into $\mathbb{R}^{2n}$*, Proc. Amer. Math. Soc. **129** (2001), 627–628.

[ARS01] P. Akhmetiev, D. Repovš and A. Skopenkov, *Embedding products of low-dimensional manifolds in $\mathbb{R}^m$*, Topol. Appl. **113** (2001), 7–12.

[ORS01] A. Onischenko, D. Repovš and A. Skopenkov, *Resolutions of 2-polyhedra by fake surfaces and embeddings into $\mathbb{R}^4$*, Contemporary Math. **288** (2001), 396–400.

[ARS02] P. Akhmetiev, D. Repovš and A. Skopenkov, *Obstructions to approximating maps of n-manifolds into $\mathbb{R}^{2n}$ by embeddings*, Topol. Appl. **123** (2002), 3–14.

[ReSk02] D. Repovš and A. Skopenkov, *On projected embeddings and desuspension of the α-invairant*, Topol. Appl. **124** (2002), 69–75.

[MRS03] J. Malešič, D. Repovš and A. Skopenkov, *On incompleteness of the deleted* *product obstruction for embeddings*, Bol. Soc. Mat. Mexicana (3) **9** (2003), 165–170.

[MuSk04] J. Mukai and A. Skopenkov, *A direct summand in a homotopy group of the mod 2 Moore space*, Kyushu J. Math. **58:1** (2004), 203–209.

[RSS04] D. Repovš, A. Skopenkov and F. Spaggiari, *An infinite sequence of non-realizable weavings*, Discr. and Appl. Math. (2004), to appear.

[CRS04] M. Cencelj, D. Repovš and A. Skopenkov, *On the Browder-Haefliger-Levine-Novikov embedding theorems*, Trudy MIRAN (2004), to appear.

[CRS] M. Cencelj, D. Repovš and A. Skopenkov, *Codimension two PL embeddings of spheres with nonstandard regular neighborhoods*, Mat. Zametki, to appear.

[GoSk] D. Goncalves and A. Skopenkov, *Embeddings of homology equivalent manifolds with boundary*, Mat. Zametki, to appear.

Pedagogical papers.

[VSS95] N. Vassiliev, V. Senderov and A. Skopenkov, *Around the Markov equation*, Kvant (1995), N6, 36–38.
